

DEVANSH AWASTHI

DevOps & Cloud Engineer | Platform Engineering

Kanpur, Uttar Pradesh, India | +91 6306937796 | awasthidevansh041@gmail.com |

linkedin.com/in/devansh-awasthi-085074327

PROFESSIONAL SUMMARY

Results-driven DevOps and Cloud Engineer with hands-on experience designing enterprise-grade CI/CD pipelines, Infrastructure as Code (IaC), and container orchestration on Microsoft Azure. Proficient in automating cloud infrastructure using Terraform and Ansible, managing Kubernetes clusters, and integrating DevSecOps practices. Combines a strong foundation in AI/ML research with platform engineering to build scalable, highly observable, and secure cloud-native environments.

TECHNICAL SKILLS

- **Cloud & DevOps:** Aws, Microsoft Azure (VM, VNet, Storage), Azure DevOps, Git, GitHub, GitHub Copilot
- **Containerization & Orchestration:** Docker, Kubernetes (K8s), Microservices Deployment, Cluster Management
- **IaC & Configuration:** Terraform, Ansible, Shell/Bash Scripting, PowerShell
- **CI/CD & DevSecOps:** Pipeline Automation, SonarQube, JFrog Artifactory,
- **Monitoring & Observability:** Prometheus, Grafana, Alerting, Incident Troubleshooting
- **Programming & OS:** Python, Java, Linux (Ubuntu/RHEL), Windows Server

PROFESSIONAL EXPERIENCE

Graduate Engineer Trainee – DevOps & Cloud | Nagarro

March 2026 - Present | Gurugram, Haryana

End-to-End DevOps & Cloud Platform (Training Project)

- **Infrastructure as Code (IaC):** Provisioned and managed Azure VM infrastructure using Terraform, reducing manual provisioning effort and ensuring 100% environment consistency.
- **Configuration Management:** Automated end-to-end server configuration and software installation across Linux VMs using Ansible playbooks, eliminating configuration drift.
- **Containerization & Orchestration:** Architected a multi-node Kubernetes cluster and containerized microservices using Docker, optimizing image layers to enhance deployment efficiency.
- **CI/CD & DevSecOps:** Engineered multi-stage Azure DevOps pipelines integrating SonarQube for automated code quality and security gating, embedding Shift-Left practices.
- **Artifact & Release Management:** Configured JFrog Artifactory for centralized artifact lifecycle management and automated Kubernetes deployment workflows for zero-touch rollouts.
- **Observability & SRE:** Established comprehensive monitoring using Prometheus and Grafana, performing root cause analysis to improve platform reliability and operational uptime.
- **Productivity:** Leveraged GitHub Copilot to accelerate automation scripting and pipeline development, significantly reducing development time.

AI Research Engineer (Academic Project) | Pranveer Singh Institute of Technology

July 2025 – December 2025 | Kanpur, UP

- **Model Development:** Designed and trained DenseNet-based deep learning models for binary flood detection, and implemented real-time human localization using YOLOv8.
- **Data Pipeline:** Built scalable image preprocessing pipelines utilizing CLAHE contrast enhancement and normalization across 10,000+ annotated images.
- **Performance Optimization:** Achieved 97% detection accuracy during model evaluation and optimized inference speed to meet real-world operational requirements for emergency response.

EDUCATION

Bachelor of Technology – Artificial Intelligence & Machine Learning

Pranveer Singh Institute of Technology (AKTU), Kanpur, UP | Graduated: June 2026

- **CGPA:** 7.34 / 10.0

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 AI Foundations Associate** – Oracle
- **Deep Learning Fundamentals** – IBM
- **Machine Learning with Python** – IBM
- **Generative AI Explained** – NVIDIA
- **Oracle Java Foundations** – Oracle

ACHIEVEMENTS & LEADERSHIP

- **Goldman Sachs Virtual Experience:** Completed the Governance Analyst program; identified legacy password hashing vulnerabilities and proposed modern security hardening recommendations aligned with industry standards.
- **National Martial Arts Champion:** 3x National Champion in Kyokushin Karate (Tamil Nadu 2017, Delhi 2018) and Bronze Medalist in SGFI Boxing State Tournament (2020). Hold a Japan-certified Black Belt in Karate(2019), demonstrating long-term discipline, focus, and resilience.
